

## IMMUNIZATION POLICY ACKNOWLEDGMENT

#### THE ROMAN CATHOLIC ARCHDIOCESE OF WASHINGTON - Catholic Schools

ALL PARENTS OF STUDENTS ATTENDING ARCHDIOCESAN CATHOLIC SCHOOLS IN MARYLAND MUST <u>READ</u> THIS FORM, <u>SIGN</u> BELOW, AND <u>RETURN</u> IT TO YOUR CHILD'S SCHOOL WITH THE MSDE OFFICE OF CHILD CARE IMMUNIZATION CERTIFICATE (ADAPTED FOR USE BY ARCHDIOCESAN SCHOOLS).

#### To All Parents of Students in Archdiocesan Catholic Schools in Maryland

It is the policy of the Archdiocese of Washington that all students attending schools in the archdiocese (PreK, K-12, and extended care programs) must be fully immunized in accordance with the immunization requirements against contagious diseases published by the local department of health. If your child has a valid medical contraindication to being immunized, and such contraindication is documented by a physician, an exemption may be permitted for the length of time certified as necessary by the child's physician.

Immunization in accordance with the Archdiocese of Washington's policy is a condition for admission into all archdiocesan Catholic schools. To be admitted to attend classes, there must be two forms related to immunization on file at your child's school by the first day of school, and they are:

- 1. THIS FORM, completed and signed; and
- 2. Maryland State Department of Education, Office of Child Care Health Inventory & Immunization Certificate, (adapted for use by Archdiocese of Washington's Catholic Schools in Maryland) signed by a medical provider and parents.

## **How To Use This Form**

The medical provider that gave the vaccinations may record the dates (using month/day/year) directly on this form (check marks are not acceptable) and certify them by signing the signature section. Combination vaccines should be listed individually, by each component of the vaccine. A different medical provider, local health department official, school official, or child care provider may transcribe onto this form and certify vaccination dates from any other record which has the authentication of a medical provider, health department, school, or child care service.

Only a medical provider, local health department official, school official, or child care provider may sign 'Record of Immunization' section of this form. This form may not be altered, changed, or modified in any way.

#### Notes:

- 1. When immunization records have been lost or destroyed, vaccination dates may be reconstructed for all vaccines except varicella, measles, mumps, or rubella.
- 2. Reconstructed dates for all vaccines must be reviewed and approved by a medical provider or local health department no later than 20 calendar days following the date the student was temporarily admitted or retained.
- 3. Blood test results are NOT acceptable evidence of immunity against diphtheria, tetanus, or pertussis (DTP/DTaP/Tdap/DT/Td).
- 4. Blood test verification of immunity is acceptable in lieu of polio, measles, mumps, rubella, hepatitis B, or varicella vaccination dates, but **revaccination may be more expedient**.
- 5. History of disease is NOT acceptable in lieu of any of the required immunizations, except varicella.

# **Immunization Requirements**

The following excerpt from the MDH Code of Maryland Regulations (COMAR) 10.06.04.03 applies to schools:

- "A preschool or school principal or other person in charge of a preschool or school, public or private, may not knowingly admit a student to or retain a student in a:
- (1) Preschool program unless the student's parent or guardian has furnished evidence of age appropriate immunity against Haemophilus influenzae, type b, and pneumococcal disease;
- (2) Preschool program or kindergarten through the second grade of school unless the student's parent or guardian has furnished evidence of age-appropriate immunity against pertussis; and
- (3) Preschool program or kindergarten through the 12th grade unless the student's parent or guardian has furnished evidence of age-appropriate immunity against: (a) Tetanus; (b) Diphtheria; (c) Poliomyelitis; (d) Measles (rubeola); (e) Mumps; (f) Rubella; (g) Hepatitis B; (h) Varicella; (i) Meningitis; and (j) Tetanus-diphtheria-acellular pertussis acquired through a Tetanus-diphtheria-acellular pertussis (Tdap) vaccine."

Please refer to the "<u>Minimum Vaccine Requirements for Children Enrolled in Pre-school Programs and in Schools</u>" to determine age-appropriate immunity for preschool through grade 12 enrollees. The minimum vaccine requirements and MDH COMAR 10.06.04.03 are available at <u>www.health.maryland.gov</u>. (Choose Immunization in the A-Z Index)

Age-appropriate immunization requirements for licensed childcare centers and family day care homes are based on the Department of Human Resources COMAR 13A.15.03.02 and COMAR 13A.16.03.04 G & H and the "Age-Appropriate Immunizations Requirements for Children Enrolled in Child Care Programs" guideline chart are available at www.health.maryland.gov. (Choose Immunization in the A-Z Index)

#### MARYLAND DEPARTMENT OF HEALTH BLOOD LEAD TESTING CERTIFICATE

Instructions: Use this form when enrolling a child in child care, pre-kindergarten, kindergarten or first grade. BOX A is to be completed by the parent or guardian. BOX B, also completed by parent/guardian, is for a child born before January 1, 2015 who does not need a lead test (children must meet all conditions in Box B). BOX C should be completed by the health care provider for any child born on or after January 1, 2015, and any child born before January 1, 2015 who does not meet all the conditions in Box B. BOX D is for children who are not tested due to religious objection (must be completed by health care provider).

#### **HOW TO USE THIS FORM**

The documented tests should be the blood lead tests at 12 months and 24 months of age. Two test dates and results are required if the first test was done prior to 24 months of age. If the first test is done after 24 months of age, one test date with result is required. The child's primary health care provider may record the test dates and results directly on this form and certify them by signing or stamping the signature section. A school health professional or designee may transcribe onto this form and certify test dates from any other record that has the authentication of a medical provider, health department, or school. All forms are kept on file with the child's school health record.

## Lead Risk Assessment Questionnaire Screening Questions:

- 1. Lives in or regularly visits a house/building built before 1978 with peeling or chipping paint, recent/ongoing renovation or remodeling?
- 2. Ever lived outside the United States or recently arrived from a foreign country?
- 3. Sibling, housemate/playmate being followed or treated for lead poisoning?
- 4. If born before 1/1/2015, lives in a 2004 "at risk" zip code?
- 5. Frequently puts things in his/her mouth such as toys, jewelry, or keys, eats non-food items (pica)?
- 6. Contact with an adult whose job or hobby involves exposure to lead?
- 7. Lives near an active lead smelter, battery recycling plant, other lead-related industry, or road where soil and dust may be contaminated with lead?
- 8. Uses products from other countries such as health remedies, spices, or food, or store or serve food in leaded crystal, pottery or pewter.
