

St. Raphael Nursery School parents are talking about us!

"SRNS is like my kids' home away from home. You become sort of like a family here and know your kids are in safe hands because we are all looking out for one another."

"It's the little things in this school that become big things. Every child is valued, and their individual learning needs are met."

"As we started at St. Raphael, we could feel the friendly community vibe right away."

"I have two sons who are very different. SRNS has been the perfect spot for both of them. My older son spent three years here, including a year in the wonderful 4-Plus program, which more than enabled him to handle kindergarten."

"I love that there is a set curriculum, but there's also plenty of free play."

"4-Plus is such a great fit for my daughter. Just this morning, she said, 'Mom, I really love going to school.' She's learning a lot and having fun doing it. SRNS helps foster independence and creates an environment where she feels confident and happy."

"The minute we walked in, we felt it in our gut that this was the school for our son."

"Best community I've been apart of between my four kids and six schools!"

"My son did wonderfully his first year and couldn't wait to go back to school each day. He made wonderful new friends, and he really came out of his his shell. He has learned so much. It is impressive to hear him talk about everything he's learned at school."

"It's great that The Golden Rule is used as a guide to help my kids (and their friends) remember how to treat each other."
